

Victorian Forensic Paediatric Medical Service

Clinical Leaders Network

Newslist

A Newslist has been developed for Clinical Leaders. This facility is to enable like-minded professionals to share ideas and information. Clinical leaders can use the Newslist to highlight best practice, identify problems (including gaps in services), and share educational material.

This secure Newslist should also allow clinical leaders to share ideas about hospital policies and procedures – why re-invent the wheel?

Difficult cases and troublesome situations often cause angst. The Newslist provides a mechanism for sharing some of these experiences so that we can all learn from them, (and try and avoid similar misfortune). A problem shared is a problem halved?
